5

Is a nutrition course right for *you*?

Five honest questions to answer before you enrol. Swipe.

01

Do you enjoy *explaining* things to people?

Most of nutrition work is conversation: with families, clients and patients.

02

Will you *check* a claim before you share it?

Good advice starts with a source. Ours is always ICMR-NIN or FSSAI.

03

Can you give a few *hours* a week?

Steady study beats cramming. Online courses fit around work and home.

04

Do you know *who* you want to help?

Families, athletes, people with diabetes, children: each needs different knowledge.

A certificate is a *start*. Are you ready for the rest?

Knowledge and a certificate open the door. What you do with them is what counts. Mostly yes? Explore NNWA's courses, 100% online.
